

BID ID:	3193
SUBMISSION TITLE:	Thinking About Psychology
GRADE LEVEL:	9 - 12_
COURSE TITLE:	Psychology 1
COURSE CODE:	2107300
ISBN:	1429233265
PUBLISHER:	<u>Bedford, Freeman and Worth Publishing Group, LLC</u>
PUBLISHER ID:	-

STANDARDS	TEXT
Scientific Inquiry Domain/Perspectives in Psychological Science	
SS.912.P.1.1 Define psychology as a discipline and identify its goals as a science.	5-6
SS.912.P.1.2 Describe the emergence of psychology as a scientific discipline.	6-14
SS.912.P.1.3 Describe perspectives employed to understand behavior and mental processes.	14-17
SS.912.P.1.4 Discuss the value of both basic and applied psychological research with human and non-human animals.	22-23
SS.912.P.1.5 Describe the major subfields of psychology.	14-17
SS.912.P.1.6 Identify the important role psychology plays in benefiting society and improving people's lives.	5-6, 16-17
Scientific Inquiry Domain/Research Methods, Measurement, and Statistics	
SS.912.P.2.1 Describe the scientific method and its role in psychology.	22-23, 29-36
SS.912.P.2.2 Describe and compare a variety of quantitative (e.g., surveys, correlations, experiments) and qualitative (e.g., interviews, narratives, focus groups) research methods.	23-36
SS.912.P.2.3 Define systematic procedures used to improve the validity of research findings, such as external validity.	451-453, 519
SS.912.P.2.4 Discuss how and why psychologists use non-human animals in research.	37-38
SS.912.P.2.5 Identify ethical standards psychologists must address regarding research with human participants.	36-37
SS.912.P.2.6 Identify ethical guidelines psychologists must address regarding research with non-human animals.	37-38

SS.912.P.2.7 Define descriptive statistics and explain how they are used by psychological scientists.	41-54
SS.912.P.2.8 Define forms of qualitative data and explain how they are used by psychological scientists.	23-36
SS.912.P.2.9 Define correlation coefficients and explain their appropriate interpretation.	25-27
SS.912.P.2.10 Interpret graphical representations of data as used in both quantitative and qualitative methods.	26, 47, 49, 51, 52, 142, 146, 147, 149, 158, 171, 180, 185, 197, 207, 214, 226, 235, 237, 238, 239, 242, 253, 256, 280, 283, 325, 329, 343, 383, 392, 393, 395, 400, 407, 413, 414, 448, 455, 465, 489, 491, 519, 553, 563, 577, 600, 609, 624, 628, 636, 639, 648
SS.912.P.2.11 Explain other statistical concepts, such as statistical significance and effect size.	43-54
SS.912.P.2.12 Explain how validity and reliability of observations and measurements relate to data analysis.	451-453, 519
Biopsychology Domain/Biological Bases of Behavior	
SS.912.P.3.1 Identify the major divisions and subdivisions of the human nervous system.	61-76
SS.912.P.3.2 Identify the parts of the neuron and describe the basic process of neural transmission.	62-69
SS.912.P.3.3 Differentiate between the structures and functions of the various parts of the central nervous system.	70-73
SS.912.P.3.4 Describe lateralization of brain functions.	89-92
SS.912.P.3.5 Discuss the mechanisms and the importance of plasticity of the nervous system.	87-88
SS.912.P.3.6 Describe how the endocrine glands are linked to the nervous system.	73-74
SS.912.P.3.7 Describe the effects of hormones on behavior and mental processes.	73-74
SS.912.P.3.8 Describe hormone effects on the immune system.	The opportunity to address this standard may be found on the following pages: 73-74
SS.912.P.3.9 Describe concepts in genetic transmission.	358-360
SS.912.P.3.10 Describe the interactive effects of heredity and environment.	364-369
SS.912.P.3.11 Explain how evolved tendencies influence behavior.	17, 557-558
Biopsychology Domain/Sensation and Perception	
SS.912.P.4.1 Discuss processes of sensation and perception and how they interact	95-117, 118-138
SS.912.P.4.2 Explain the concepts of threshold and adaptation.	96-97
SS.912.P.4.3 List forms of physical energy for which humans and non-human animals do and do not have sensory receptors.	131
SS.912.P.4.4 Describe the visual sensory system.	100-106

SS.912.P.4.5 Describe the auditory sensory system.	107-110
SS.912.P.4.6 Describe other sensory systems, such as olfaction, gustation, and somesthesia (e.g., skin senses, kinesthesia, and vestibular sense).	111-115
SS.912.P.4.7 Explain Gestalt principles of perception.	119-121
SS.912.P.4.8 Describe binocular and monocular depth cues.	121-126
SS.912.P.4.9 Describe the importance of perceptual constancies.	128-130
SS.912.P.4.10 Describe perceptual illusions.	132-135
SS.912.P.4.11 Describe the nature of attention.	98-100, 292
SS.912.P.4.12 Explain how experiences and expectations influence perception.	128-130
Biopsychology Domain/Consciousness	
SS.912.P.5.1 Identify states of consciousness.	175-185
SS.912.P.5.2 Distinguish between processing that is conscious (i.e., explicit) and other processing that happens without conscious awareness (i.e., implicit).	175-185
SS.912.P.5.3 Describe the circadian rhythm and its relation to sleep.	140-141
SS.912.P.5.4 Describe the sleep cycle.	145-150
SS.912.P.5.5 Compare theories about the functions of sleep.	143-145, 152
SS.912.P.5.6 Describe types of sleep disorders.	151-154
SS.912.P.5.7 Compare theories about the functions of dreams.	148-150
SS.912.P.5.8 Characterize the major categories of psychoactive drugs and their effects.	157-168
SS.912.P.5.9 Describe how psychoactive drugs act at the synaptic level.	157-159
SS.912.P.5.10 Evaluate the biological and psychological effects of psychoactive drugs.	159-168
SS.912.P.5.11 Explain how culture and expectations influence the use and experience of drugs.	169-170
SS.912.P.5.12 Describe meditation and relaxation and their effects.	184-185
SS.912.P.5.13 Describe hypnosis and controversies surrounding its nature and use.	176-183
SS.912.P.5.14 Describe flow states.	642-643
Development and Learning Domain/Life Span Development	
SS.912.P.6.1 Explain the interaction of environmental and biological factors in development, including the role of the brain in all aspects of development.	191-212, 213-230, 231-245
SS.912.P.6.2 Explain issues of continuity/discontinuity and stability/change.	191-212, 213-230, 231-245
SS.912.P.6.3 Distinguish methods used to study development.	192-194, 214-215, 232-233
SS.912.P.6.4 Describe the role of sensitive and critical periods in development.	192-194, 214-215, 232-233
SS.912.P.6.5 Discuss issues related to the end of life.	244-245
SS.912.P.6.6 Discuss theories of cognitive development.	198-203, 218-220, 237-240
SS.912.P.6.7 Discuss theories of moral development.	219-221
SS.912.P.6.8 Discuss theories of social development.	204-208, 221-226, 240-244

SS.912.P.6.9 Describe physical development from conception through birth and identify influences on prenatal development.	192-197
SS.912.P.6.10 Describe newborns' reflexes, temperament, and abilities.	194-195
SS.912.P.6.11 Describe physical and motor development in infancy.	194-200
SS.912.P.6.12 Describe how infant perceptual abilities and intelligence develop.	198-199
SS.912.P.6.13 Describe the development of attachment and the role of the caregiver.	205-209
SS.912.P.6.14 Describe the development of communication and language in infancy.	200-201
SS.912.P.6.15 Describe physical and motor development in childhood.	291-203
SS.912.P.6.16 Describe how memory and thinking ability develops in childhood.	198-199
SS.912.P.6.17 Describe social, cultural, and emotional development through childhood.	204-208, 221-226
SS.912.P.6.18 Identify major physical changes in adolescence.	216-218
SS.912.P.6.19 Describe the development of reasoning and morality in adolescence.	218-221
SS.912.P.6.20 Describe identity formation in adolescence.	223-224
SS.912.P.6.21 Discuss the role of family and peers in adolescent development.	221-222, 225-227
SS.912.P.6.22 Identify major physical changes associated with adulthood and aging.	234-237
SS.912.P.6.23 Describe cognitive changes in adulthood and aging.	237-240
SS.912.P.6.24 Discuss social, cultural, and emotional issues in aging.	240-245
Development and Learning Domain/Learning	
SS.912.P.7.1 Describe the principles of classical conditioning.	249-265
SS.912.P.7.2 Describe clinical and experimental examples of classical conditioning.	253-260
SS.912.P.7.3 Apply classical conditioning to everyday life.	255-263
SS.912.P.7.4 Describe the Law of Effect.	268-271
SS.912.P.7.5 Describe the principles of operant conditioning.	266-288
SS.912.P.7.6 Describe clinical and experimental examples of operant conditioning.	268-284
SS.912.P.7.7 Apply operant conditioning to everyday life.	271-284
SS.912.P.7.8 Describe the principles of observational and cognitive learning.	289-297
SS.912.P.7.9 Apply observational and cognitive learning to everyday life.	289-297
Development and Learning Domain/Language Development	
SS.912.P.8.1 Describe the structure and function of language.	298-307
SS.912.P.8.2 Discuss the relationship between language and thought.	304-306

SS.912.P.8.3 Explain the process of language acquisition.	302-303
SS.912.P.8.4 Discuss how acquisition of a second language can affect language development and possibly other cognitive processes.	297, 305-306
SS.912.P.8.5 Evaluate the theories of language acquisition.	302-303
SS.912.P.8.6 Identify the brain structures associated with language.	299-303
SS.912.P.8.7 Discuss how damage to the brain may affect language.	305
Sociocultural Context Domain/Social Interactions	
SS.912.P.9.1 Describe attributional explanations of behavior.	312-315
SS.912.P.9.2 Describe the relationship between attitudes (implicit and explicit) and behavior.	315-321
SS.912.P.9.3 Identify persuasive methods used to change attitudes.	321-332
SS.912.P.9.4 Describe the power of the situation.	312-315
SS.912.P.9.5 Describe effects of others' presence on individuals' behavior.	327-329
SS.912.P.9.6 Describe how group dynamics influence behavior.	329-331
SS.912.P.9.7 Discuss how an individual influences group behavior.	331-332
SS.912.P.9.8 Discuss the nature and effects of stereotyping, prejudice, and discrimination.	344-349, 379-380
SS.912.P.9.9 Describe determinants of prosocial behavior.	335-344
SS.912.P.9.10 Discuss influences upon aggression and conflict.	349-351
SS.912.P.9.11 Discuss factors influencing attraction and relationships.	335-340
Sociocultural Context Domain/Sociocultural Diversity	
SS.912.P.10.1 Define culture and diversity.	371-372, 379-385
SS.912.P.10.2 Identify how cultures change over time and vary within nations and internationally.	372-373
SS.912.P.10.3 Discuss the relationship between culture and conceptions of self and identity.	373-378
SS.912.P.10.4 Discuss psychological research examining race and ethnicity.	372, 379-380
SS.912.P.10.5 Discuss psychological research examining socioeconomic status.	545-546
SS.912.P.10.6 Discuss how privilege and social power structures relate to stereotypes, prejudice, and discrimination.	344-349, 379-380
SS.912.P.10.7 Discuss psychological research examining gender identity.	380-384
SS.912.P.10.8 Discuss psychological research examining diversity in sexual orientation.	217-218
SS.912.P.10.9 Compare and contrast gender identity and sexual orientation.	217-218, 382, 502
SS.912.P.10.10 Discuss psychological research examining gender similarities and differences and the impact of gender discrimination.	380-384

SS.912.P.10.11 Discuss the psychological research on gender and how the roles of women and men in societies are perceived.	380-384
SS.912.P.10.12 Examine how perspectives affect stereotypes and treatment of minority and majority groups in society.	344-349, 379-380
SS.912.P.10.13 Discuss psychological research examining differences in individual cognitive and physical abilities.	448-449
SS.912.P.10.14 Examine societal treatment of people with disabilities and the effect of treatment by others on individual identity/status.	The opportunity to address this standard may be found on the following pages: 448-449
Cognition Domain/Memory	
SS.912.P.11.1 Identify factors that influence encoding.	391-398
SS.912.P.11.2 Characterize the difference between shallow (surface) and deep (elaborate) processing.	391-395
SS.912.P.11.3 Discuss strategies for improving the encoding of memory.	396-398
SS.912.P.11.4 Describe the differences between working memory and long-term memory.	399-403
SS.912.P.11.5 Identify and explain biological processes related to how memory is stored.	403-405
SS.912.P.11.6 Discuss types of memory and memory disorders (e.g., amnesias, dementias).	399-403
SS.912.P.11.7 Discuss strategies for improving the storage of memories.	402-405
SS.912.P.11.8 Analyze the importance of retrieval cues in memory.	406-408
SS.912.P.11.9 Explain the role that interference plays in retrieval.	406-407
SS.912.P.11.10 Discuss the factors influencing how memories are retrieved.	406-408
SS.912.P.11.11 Explain how memories can be malleable.	407-408
SS.912.P.11.12 Discuss strategies for improving the retrieval of memories.	406-408
Cognition Domain/Thinking	
SS.912.P.12.1 Define cognitive processes involved in understanding information.	428-430
SS.912.P.12.2 Define processes involved in problem solving and decision making.	430-432
SS.912.P.12.3 Discuss non-human problem-solving abilities.	The opportunity to address this standard may be found on the following pages: 430-432
SS.912.P.12.4 Describe obstacles to problem solving.	432-437
SS.912.P.12.5 Describe obstacles to decision making.	432-437
SS.912.P.12.6 Describe obstacles to making good judgments.	432-437
Cognition Domain/Intelligence	
SS.912.P.13.1 Discuss intelligence as a general factor.	440-442
SS.912.P.13.2 Discuss alternative conceptualizations of intelligence.	442-443

SS.912.P.13.3 Describe the extremes of intelligence.	447-450
SS.912.P.13.4 Discuss the history of intelligence testing, including historical use and misuse in the context of fairness.	443-447
SS.912.P.13.5 Identify current methods of assessing human abilities.	447-451
SS.912.P.13.6 Identify measures of and data on reliability and validity for intelligence test scores.	451-453
SS.912.P.13.7 Discuss issues related to the consequences of intelligence testing.	453-455
SS.912.P.13.8 Discuss the influences of biological, cultural, and environmental factors on intelligence.	453-455
Individual Variations Domain/Motivation	
SS.912.P.14.1 Explain biologically based theories of motivation.	464-466
SS.912.P.14.2 Explain cognitively based theories of motivation.	466-467
SS.912.P.14.3 Explain humanistic theories of motivation.	462-464
SS.912.P.14.4 Explain the role of culture in human motivation.	474-476
SS.912.P.14.5 Discuss eating behavior.	471-476
SS.912.P.14.6 Discuss sexual behavior and orientation.	217-218
SS.912.P.14.7 Discuss achievement motivation.	469-471
SS.912.P.14.8 Discuss other ways in which humans and non-human animals are motivated.	462-469
Individual Variations Domain/Emotion	
SS.912.P.15.1 Explain the biological and cognitive components of emotion.	483-488
SS.912.P.15.2 Discuss psychological research on basic human emotions.	481-492
SS.912.P.15.3 Differentiate among theories of emotional experience.	481-485
SS.912.P.15.4 Explain how biological factors influence emotional interpretation and expression.	483, 486-489
SS.912.P.15.5 Explain how culture and gender influence emotional interpretation and expression.	490-492
SS.912.P.15.6 Explain how other environmental factors influence emotional interpretation and expression.	488-492
SS.912.P.15.7 Identify biological and environmental influences on the expression experience of negative emotions, such as fear.	486-489
SS.912.P.15.8 Identify biological and environmental influences on the expression and experience of positive emotions, such as happiness.	485, 488-490
Individual Variations Domain/Personality	
SS.912.P.16.1 Evaluate psychodynamic theories.	495-505
SS.912.P.16.2 Evaluate trait theories.	514-520
SS.912.P.16.3 Evaluate humanistic theories.	506-511
SS.912.P.16.4 Evaluate social-cognitive theories.	521-525
SS.912.P.16.5 Differentiate personality assessment techniques.	508-509
SS.912.P.16.6 Discuss the reliability and validity of personality assessment techniques.	508-509
SS.912.P.16.7 Discuss biological and situational influences.	515-517, 527-528

SS.912.P.16.8 Discuss stability and change.	508-509
SS.912.P.16.9 Discuss connection to health and work on personality.	506-509
SS.912.P.16.10 Discuss self-concept.	508-509
Individual Variations Domain/Psychological Disorders	
SS.912.P.17.1 Define psychologically abnormal behavior.	533-538
SS.912.P.17.2 Describe historical and cross-cultural views of abnormality.	534-541
SS.912.P.17.3 Describe major models of abnormality.	539-548
SS.912.P.17.4 Discuss how stigma relates to abnormal behavior.	543-546
SS.912.P.17.5 Discuss the impact of psychological disorders on the individual, family, and society.	536-541, 562-563, 573
SS.912.P.17.6 Describe the classification of psychological disorders.	539-542
SS.912.P.17.7 Discuss the challenges associated with diagnosis.	539-541
SS.912.P.17.8 Describe symptoms and causes of major categories of psychological disorders (including schizophrenic, mood, anxiety, and personality disorders).	549-568, 569-581
SS.912.P.17.9 Evaluate how different factors influence an individual's experience of psychological disorders.	536-541, 562-563, 573
Applications of Psychological Science Domain/Treatment of Psychological Disorders	
SS.912.P.18.1 Explain how psychological treatments have changed over time and among cultures.	587-606, 607-620
SS.912.P.18.2 Match methods of treatment to psychological perspectives.	587-606, 607-620
SS.912.P.18.3 Explain why psychologists use a variety of treatment options.	587-606, 607-620
SS.912.P.18.4 Identify biomedical treatments.	607-620
SS.912.P.18.5 Identify psychological treatments.	587-606
SS.912.P.18.6 Describe appropriate treatments for different age groups.	599-606
SS.912.P.18.7 Evaluate the efficacy of treatments for particular disorders.	587-606, 607-620
SS.912.P.18.8 Identify other factors that improve the efficacy of treatment.	587-606, 607-620
SS.912.P.18.9 Identify treatment providers for psychological disorders and the training required for each.	A-1-A10
SS.912.P.18.10 Identify ethical challenges involved in delivery of treatment.	326, 608-609, 614-617
SS.912.P.18.11 Identify national and local resources available to support individuals with psychological disorders and their families (e.g., NAMI and support groups).	601
Applications of Psychological Science Domain/ Health	
SS.912.P.19.1 Define stress as a psychophysiological reaction.	622-626
SS.912.P.19.2 Identify and explain potential sources of stress.	625-627
SS.912.P.19.3 Explain physiological and psychological consequences of stress for health.	629-632

SS.912.P.19.4 Identify and explain physiological, cognitive, and behavioral strategies to deal with stress.	622-625
SS.912.P.19.5 Identify ways to promote mental health and physical fitness.	635-640, 646-651
SS.912.P.19.6 Describe the characteristics of and factors that promote resilience and optimism.	641-645
SS.912.P.19.7 Distinguish between effective and ineffective means of dealing with stressors and other health issues.	622-625
Applications of Psychological Science Domain/Vocational Applications	
SS.912.P.20.1 Identify careers in psychological science and practice.	A-1-A10
SS.912.P.20.2 Identify resources to help select psychology programs for further study.	A-1-A10
SS.912.P.20.3 Identify degree requirements for psychologists and psychology-related careers.	A-1-A10
SS.912.P.20.4 Identify careers related to psychology.	A-1-A10
SS.912.P.20.5 Discuss ways in which psychological science addresses domestic and global issues.	16-19
SS.912.P.20.6 Identify careers in psychological science that have evolved as a result of domestic and global issues.	16-19
