

BENCHWORKS NEW STUDENT ASSESSMENT

About the Assessment

The Benchworks New Student Survey enables you to assess how well new students are acclimating to campus by providing insight into the critical topics that impact new student satisfaction including: academic adjustment, educational goals, non-cognitive skills, social connections, and residence life experiences.

Gather high-impact insight about new students, collaborate to identify issues, and quickly intervene to facilitate student success.

THE NEW STUDENT ASSESSMENT EVALUATES:

- Academic Integration
- Academic Major
- Academic Resiliency
- Academic Self-Efficacy
- Advanced Academic Behaviors
- Advanced Study Skills
- Basic Academic Behaviors
- Campus Activities
- Commitment to the Institution

- External Commitments
- Financial Mean
- Health
- Homesickness: Distressed
- Homesickness: Separation
- Military Students
- Off-Campus Living: Environment
- On-Campus Living: Environment
- On-Campus Living: Roommates
- On-Campus Living: Social Aspects
- Peer Connections
- Satisfaction with the Institution
- Self-Assessment: Analytical Skills
- Self-Assessment: Communication Skills
- Self-Assessment: Self-Discipline
- Self-Assessment: Time Management
- Social Integration
- Student-Athletes
- Test Anxiety
- Transfer Students

Contact your Assessment Specialist today to learn more about creating a new student survey customized to meet your institution's needs, including adding open-ended questions and items focused on specific populations like transfer students, student-athletes and military students.

INSIGHTS THAT DRIVE CONTINUOUS IMPROVEMENT

Identifiable Data Downloads • NEW!

Download individual survey responses to targeted outreach and intervention for individual students based on survey responses.

Modules • NEW!

Customize the survey by selecting modules to include and removing questions.

Standard Analysis and Reporting

Access descriptive results for the entire population or create, save and edit filters to select and view reports for specifically defined populations.

Comparative Analysis

Benchmark against peers in your "Select 6" group, your Carnegie Class, and all participating institutions. Using the survey over multiple years allows for longitudinal analysis.

Online Executive Summary

Direct managers and decision-makers to answers to the questions they most frequently ask.

Custom Statistical Analysis Report (CSAR)

Use regressions and t-tests to identify which factors have the greatest impact on performance and which differences in comparative analysis are statistically valid.

Advanced Institution-Specific Questions

Add up to 20 categorical, scaled, check-all that apply, numeric and/or text questions to further customize survey content.

Unit Codes

Use pre-defined and coded academic housing or custom units to view built-in comparative analyses or conduct customized analyses.
