AP Psychology Curriculum Framework (2024)

CF Unit	AP Psychology CF Unit + Topic	Unit and Module
	Practice and Skill	
	Practice 1 Concept Application-Apply psychological perspectives, theories, concepts, and research findings.	Unit I: Psychology's History and Approaches
	1.A Apply psychological perspectives, theories, concepts, and research findings to a scenario.	Module 1: Psychology's History; Module 2: Psychology's Big Issues and Approaches
	1.B Explain how cultural norms, expectations, and circumstances, as well as cognitive biases apply to behavior and mental processes.	Unit II: Reasearch Methods: Thinking Critically With Psychological Science-Module 4: The Need for Psychological Science
	Practice 2 Research Methods and Design - Evaluate qualitative and quantitative research methods and study designs.	Unit II: Reasearch Methods: Thinking Critically With Psychological Science
	2.A Determine the type of research design(s) used in a given study.	Module 4: The Need for Psychological Science; Module 5: The Scientific Method and Description; Module 6: Correlation and Experimentation
	2.B Evaluate the appropriate use of research design elements in experimental methodology.	Module 4: The Need for Psychological Science; Module 5: The Scientific Method and Description; Module 6: Correlation and Experimentation
	2.C Evaluate the appropriate use of research design elements in non-experimental methodologies.	Module 4: The Need for Psychological Science; Module 5: The Scientific Method and Description; Module 6: Correlation and Experimentation
	2.D Evaluate whether a psychological research scenario followed appropriate ethical procedures.	Module 8: Frequently Asked Questions About Psycholgy

4.A Propose a defensible claim. "Thinking Critically About" Infographics; Practice FRQ: 4.B Provide reasoning that is grounded in scientifically derived evidence to support, refute, or modify an established or provided claim, policy, or norm. "Thinking Critically About" Infographics; Practice FRQ: 0 Course Content "Thinking Critically About" Infographics; Practice FRQ: 1 Biological Bases of Behavior Unit III Biological Bases of Behavior 1.1 Interaction of Heredity and Environment Module 14: Behavior Genetics: Predicting Individual Differences 1.2 Overview of the Nervous System Module 10: The Nervous and Endocrine Systems 1.3 The Neuron and Neural Firing Module 9: Biological Psychology and Neurotransmissior 1.4 The Brain Structures; Module 12: The Cerebral Cortex; Module 13: Brain Hemisphere Organization and the Biology of Consciousness 1.5 Sleep Unit V States of Consciousness-Module 23: Sleep Patterns and Sleep Theories; Module 24: Sleep Deprovation, Sleep Disorders, and Dreams 1.6 Sensation Unit IV Sensation and Perception-Module 16: Basic Principles of Sensation and Perception 2 Cognition Unit VI Cognition 2.1 Perception Unit IV Sensation and Perception-Module 17 Influences on Perception	-		
data. Module 7: Statistical Reasoning in Everyday Life 3.B Calculate and interpret measures of central tendency, variation, and percentile rank in a given data set Module 7: Statistical Reasoning in Everyday Life 3.C Interpret quantitative or qualitative inferential data from a given table, graph, chart, figure, or diagram. Module 7: Statistical Reasoning in Everyday Life Practice 4 Argumentation - Develop and justify psychological arguments using evidence. "Thinking Critically About" Infographics; Practice FRQ: 4.A Propose a defensible claim. "Thinking Critically About" Infographics; Practice FRQ: 4.B Provide reasoning that is grounded in scientifically derived evidence to support, refute, or modify an established or provided claim, policy, or norm. "Thinking Critically About" Infographics; Practice FRQ: 1 Biological Bases of Behavior Unit III Biological Bases of Behavior "Thinking Critically About" Infographics; Practice FRQ: 1.1 Interaction of Heredity and Environment Module 14: Behavior Genetics: Predicting Individual Differences 1.2 Overview of the Nervous System Module 11: Studying the Brain, and Older Brain Structures; Module 12: The Cerebral Cortex; Module 13: Brain Hemisphere Organization and the Biology of Consciousness. Module 12: Sleep Patterns and Sleep Theories; Module 23: Sleep Patterns and Sleep Theories; Module 24: Sleep Deprovation, Sleep Disorders, and Dreams 1.5 Sleep Unit IV Sensation and Perception-Module 16: Basic Principles		concepts in quantitative and qualitative research, including tables, graphs,	
percentile rank in a given data set Module 7: Statistical Reasoning in Everyday Life 3.C Interpret quantitative or qualitative inferential data from a given table, graph, chart, figure, or diagram. Module 7: Statistical Reasoning in Everyday Life Practice 4 Argumentation - Develop and justify psychological arguments using evidence. "Thinking Critically About" Infographics; Practice FRQ: 4.A Propose a defensible claim. 4.A Propose a defensible claim. "Thinking Critically About" Infographics; Practice FRQ: 4.B Provide reasoning that is grounded in scientifically derived evidence to support, refute, or modify an established or provided claim, policy, or norm. "Thinking Critically About" Infographics; Practice FRQ: Thinking Critically About" Infographics; Practice FRQ: Course Content 1 Biological Bases of Behavior Unit III Biological Bases of Behavior 1.1 Interaction of Heredity and Environment Module 10: The Nervous and Endocrine Systems 1.3 The Neuron and Neural Firing Module 10: The Nervous and Endocrine Systems 1.4 The Brain Module 11: Studying the Brain, and Older Brain Structures; Module 12: The Cerebral Cortex; Module 13: Brain Hemisphere Organization and the Biology of Consclousness 1.5 Sleep Unit V States of Consclousness-Module 23: Sleep Patterns and Sleep Theories; Module 14: Basic Principles of Sensation and Perception-Module 16: Basic Principles of Sensation and Perception-Module 16: Basic Principles of Sensation and Perception-Module 17 Influences on Perception			Module 7: Statistical Reasoning in Everyday Life
graph, chart, figure, or diagram. Module 7: Statistical Reasoning in Everyday Life Practice 4 Argumentation - Develop and justify psychological arguments using evidence. "Thinking Critically About" Infographics; Practice FRQ: 4.A Propose a defensible claim. 4.B Provide reasoning that is grounded in scientifically derived evidence to support, refute, or modify an established or provided claim, policy, or norm. "Thinking Critically About" Infographics; Practice FRQ: Course Content "Thinking Critically About" Infographics; Practice FRQ: 1 Biological Bases of Behavior Unit III Biological Bases of Behavior 1.1 Interaction of Heredity and Environment Module 14: Behavior Genetics: Predicting Individual Differences 1.2 Overview of the Nervous System Module 10: The Nervous and Endocrine Systems 1.3 The Neuron and Neural Firing Module 9: Biological Psychology and Neurotransmission 1.4 The Brain Module 11: Studying the Brain, and Older Brain Structures; Module 12: The Cerebral Cortex; Module 13 Brain Hemisphere Organization and the Biology of Consciousness 1.5 Sleep Unit IV States of Consciousness-Module 23: Sleep Patterns and Sleep Theories; Module 14: Beasic Principles of Sensation and Perception-Module 16: Basic Principles of Sensation and Perception 2 Cognition Unit IV Sensation and Perception-Module 16: Basic Principles of Sensation and Perception			"Thinking Critically About" Infographics; Practice FRQs
support, refute, or modify an established or provided claim, policy, or norm. "Thinking Critically About" Infographics; Practice FRQ: Course Content "Thinking Critically About" Infographics; Practice FRQ: 1 Biological Bases of Behavior Unit III Biological Bases of Behavior 1.1 Interaction of Heredity and Environment Module 14: Behavior Genetics: Predicting Individual Differences 1.2 Overview of the Nervous System Module 10: The Nervous and Endocrine Systems 1.3 The Neuron and Neural Firing Module 9: Biological Psychology and Neurotransmission 1.4 The Brain Module 11: Studying the Brain, and Older Brain Structures; Module 12: The Cerebral Cortex; Module 13 Brain Hemisphere Organization and the Biology of Consciousness 1.5 Sleep Unit V States of Consciousness-Module 23: Sleep Patterns and Sleep Theories; Module 24: Sleep Deprovation, Sleep Disorders, and Dreams 1.6 Sensation Unit V Sensation and Perception-Module 16: Basic Principles of Sensation and Perception 2 Cognition Unit VII Cognition Unit VII Cognition 2.1 Perception Unit VI Sensation and Perception-Module 17 Influences on Perception		4.A Propose a defensible claim.	"Thinking Critically About" Infographics; Practice FRQs
1 Biological Bases of Behavior Unit III Biological Bases of Behavior 1.1 Interaction of Heredity and Environment Module 14: Behavior Genetics: Predicting Individual Differences 1.2 Overview of the Nervous System Module 10: The Nervous and Endocrine Systems 1.3 The Neuron and Neural Firing Module 19: Biological Psychology and Neurotransmission 1.4 The Brain Module 11: Studying the Brain, and Older Brain Structures; Module 12: The Cerebral Cortex; Module 13 Brain Hemisphere Organization and the Biology of Consciousness 1.5 Sleep Unit V States of Consciousness-Module 23: Sleep Patterns and Sleep Theories; Module 14: Benovier, and Dreams 1.6 Sensation Unit IV Sensation and Perception 2 Cognition Unit VI Cognition 2.1 Perception Unit IV Sensation and Perception-Module 17 Influences on Perception			"Thinking Critically About" Infographics; Practice FRQs
1.1 Interaction of Heredity and Environment Module 14: Behavior Genetics: Predicting Individual Differences 1.2 Overview of the Nervous System Module 10: The Nervous and Endocrine Systems 1.3 The Neuron and Neural Firing Module 9: Biological Psychology and Neurotransmission 1.4 The Brain Module 11: Studying the Brain, and Older Brain Structures; Module 12: The Cerebral Cortex; Module 13 Brain Hemisphere Organization and the Biology of Consciousness 1.5 Sleep Unit V States of Consciousness-Module 23: Sleep Patterns and Sleep Theories; Module 14: Sleep Deprovation, Sleep Disorders, and Dreams 1.6 Sensation Unit IV Sensation and Perception 2 Cognition Unit VII Cognition 2.1 Perception Unit IV Sensation and Perception-Module 17 Influences on Perception		Course Content	
1.2 Overview of the Nervous System Module 10: The Nervous and Endocrine Systems 1.3 The Neuron and Neural Firing Module 9: Biological Psychology and Neurotransmission 1.4 The Brain Module 11: Studying the Brain, and Older Brain Structures; Module 12: The Cerebral Cortex; Module 13 Brain Hemisphere Organization and the Biology of Consciousness 1.5 Sleep Unit V States of Consciousness-Module 23: Sleep Patterns and Sleep Theories; Module 24: Sleep Deprovation, Sleep Disorders, and Dreams 1.6 Sensation Unit IV Sensation and Perception-Module 16: Basic Principles of Sensation and Perception 2 Cognition Unit VII Cognition 2.1 Perception Unit IV Sensation and Perception-Module 17 Influences on Perception	1	Biological Bases of Behavior	Unit III Biological Bases of Behavior
1.3 The Neuron and Neural Firing Module 9: Biological Psychology and Neurotransmission 1.4 The Brain Module 11: Studying the Brain, and Older Brain Structures; Module 12: The Cerebral Cortex; Module 13 Brain Hemisphere Organization and the Biology of Consciousness 1.5 Sleep Unit V States of Consciousness-Module 23: Sleep Patterns and Sleep Theories; Module 24: Sleep Deprovation, Sleep Disorders, and Dreams 1.6 Sensation Unit IV Sensation and Perception-Module 16: Basic Principles of Sensation and Perception 2 Cognition 2.1 Perception Unit VII Cognition Unit IV Sensation and Perception-Module 17 Influences on Perception		1.1 Interaction of Heredity and Environment	
1.4 The Brain Module 11: Studying the Brain, and Older Brain Structures; Module 12: The Cerebral Cortex; Module 13 Brain Hemisphere Organization and the Biology of Consciousness 1.5 Sleep Unit V States of Consciousness-Module 23: Sleep Patterns and Sleep Theories; Module 24: Sleep Deprovation, Sleep Disorders, and Dreams 1.6 Sensation Unit IV Sensation and Perception-Module 16: Basic Principles of Sensation and Perception 2 Cognition Unit VII Cognition 2.1 Perception Unit IV Sensation and Perception-Module 17 Influences on Perception		1.2 Overview of the Nervous System	Module 10: The Nervous and Endocrine Systems
Structures; Module 12: The Cerebral Cortex; Module 13 Brain Hemisphere Organization and the Biology of Consciousness 1.5 Sleep Unit V States of Consciousness-Module 23: Sleep Patterns and Sleep Theories; Module 24: Sleep Deprovation, Sleep Disorders, and Dreams 1.6 Sensation Unit IV Sensation and Perception-Module 16: Basic Principles of Sensation and Perception 2 Cognition Unit VII Cognition 2.1 Perception Unit IV Sensation and Perception-Module 17 Influences on Perception		1.3 The Neuron and Neural Firing	Module 9: Biological Psychology and Neurotransmission
Patterns and Sleep Theories; Module 24: Sleep Deprovation, Sleep Disorders, and Dreams 1.6 Sensation Unit IV Sensation and Perception-Module 16: Basic Principles of Sensation and Perception 2 Cognition 2.1 Perception Unit IV Sensation and Perception-Module 17 Influences on Perception		1.4 The Brain	Structures; Module 12: The Cerebral Cortex; Module 13: Brain Hemisphere Organization and the Biology of
Image: Second state of second s		1.5 Sleep	Patterns and Sleep Theories; Module 24: Sleep
2.1 Perception Unit IV Sensation and Perception-Module 17 Influences on Perception		1.6 Sensation	
2.1 Perception Unit IV Sensation and Perception-Module 17 Influences on Perception			
on Perception	2	Cognition	Unit VII Cognition
2.2 Thinking Problem Solving Judgments and Decision Making Module 34: Thinking Concepts and Creatvity: Module		2.1 Perception	Unit IV Sensation and Perception-Module 17 Influences on Perception
35: Solving Problem-Solving, Sudgments, and Decision-Making 35: Solving Problems and Making Decisions		2.2 Thinking, Problem-Solving, Judgments, and Decision-Making	Module 34: Thinking, Concepts, and Creatvity; Module 35: Solving Problems and Making Decisions

	2.3 Introduction to Memory	Module 31: Studing and Building Memories
	2.4 Encoding Memories	Module 31: Studing and Building Memories
	2.5 Storing Memories	Module 32: Memory Storage and Retrieval
	2.6 Retrieving Memories	Module 32: Memory Storage and Retrieval
	2.7 Forgetting and Other Memory Challenges	Module 33: Forgetting, Memory Construction, and Memory Improvement
	2.8 Intelligence and Achivement	Unit XI Testing and Individual Differences
3	Development and Learning	Unit VI: Learning/Unit IX Developmental Psychology
	3.1 Themes and Methods in Developmental Psychology	Module 45: Developmental Issues, Prenatal Developmental, and the Newborn; Module 47: Infancy and Childhood: Cognitive Development
	3.2 Physical Development Across the Lifespan	Module 46: Infancy and Childhood: Physical Development; Module 51: Aolescence: Physical and Cognitive Development; Module 54: Adulthood: Physical, Cognitive, and Social Development
	3.3 Gender and Sexual Orientation	Module 49: Gender Development; Module 53: Sexual Development
	3.4 Cognitive Development Across the Lifespan	Module 47: Infancy and Childhood: Cognitive Development; Module 51: Aolescence: Physical and Cognitive Development; Module 54: Adulthood: Physical, Cognitive, and Social Development
	3.5 Communication and Language Development	Unit VII Cognition-Module 36: Thinking and Language
	3.6 Social-Emotional Development Across the Lifespan	Module 48: Infancy and Childhood: Social Development; Module 52: Adolescence: Social Development and Emerging Adulthood; Module 54: Adulthood: Physical, Cognitive, and Social Development
	3.7 Classical Conditioning	Module 26: How We Learn and Classical Conditioning
	3.8 Operant Conditioning	Module 27: Operant Conditioning
	3.9 Social, Cognitive, and Neurological Factors in Learning	Module 29: Biology, Cognition, and Learning
4	Social Psychology and Personality	Unit X Personality/Unit XIV Social Psychology
	4.1 Attribution Theory, Locus of Control, and Person Perception	Module 74: Attribution, Attitudes, and Actions
	4.2 Attitude Formation and Attitude Change	Module 74: Attribution, Attitudes, and Actions

	4.3 Psychology of Social Situations	Module 75: Conformity and Obedience; Module 76: Group Behavior; Module 77: Prejudice and Discrimination; Module 78: Aggression; Module 79: Attraction
	4.4 Psychodynamic and Humanistic theories of Personality	Module 56: Psychodynamic Theories and Modern Views of the Unconscious; Module 57: Humanistics Theories
	4.5 Social-Cognitive and Trait Theories of Personality	Module 58: Trait Theories; Module 59: Social-Cognitive Theories and Exploring the Self
	4.6 Motivation	Unit VIII Motivation Emotion, and Stress-Module 37: Motivational Concepts; Module 38: Hunder Motivation; Module 39: Sexual Motivation; Module 40: Social Motivation: Affiliation Needs
	4.7 Emotion	Unit VIII Motivation Emotion, and Stress-Module 41: Theories and Physiology of Emotion;I Module 42: Expressed Emotion
5	5 Mental and Physical Health	Unit I Psychology's History and Approaches; Unit VIII Motivation, Emotion, and Stress; Unit X Personality; Unit XII Abnormal Behavior; Enrichment Modules
	5.1 Introduction to Health Psychology	Unit I Psychology's History and Approaches-Module 3: Careers in Psychology; Unit VIII Motivation, Emotion, and Stress-Module 42: Expressed Emotion; Enrichment Module 84: Human Flourishing
	5.2 Positive Psychology	Unit I Psychology's History and Approaches-Module 2: Psychology's Big Issues and Approaches; Unit X Personality-Module 59: Social-Cognitive Theories and Exploring the Self
	5.3 Explaining and Classifying Psychological Disorders	Unit XII Abnormal Behavior-Module 65: Introduction to Psychological Disorders
	5.4 Selection of Categories of Psychological Disorders	Module 66: Anxiety Disorders, Obsessive-Compulsive. Disorder, and Posttraumatic Stress Disorder; Module 67: Mood Disorders; Module 68: Schizophrenia; Module 69: Other Disorders

5.5 Treatment of Psychological Disorders	Unit XII Treatment of Abnormal Behavior-Module 70: Introduction to Therapy, and Psychodynamic and Humanistic Therapies; Module 71: Behavior, Cognitive, and Group Therapies; Module 72: Evaluating Psychotherapies and Prevention Strategies; Module 73: The Biomedical Therapies
